0.introduction to electrical engineering

0.0 myself

My Resume

My Resume

My Resume

My Resume

My Resume

my subjects

- Electrical Engineering I/II
- Introduction to Digital Systems
- Circuit Design
- Elektronik Labor (German, Electronics Laboratory)
- Microcontrollertechnik (German, Microcontroller Technology)
- Elektronische Systeme (German, Electrical Systems)

further connections

- Laborarbeit (mixed, Laboratory work)
- Bachelor-Seminararbeit (mixed, Student Research Project for Bachelor)
- Bachelor-Thesis (mixed)
- Master-Seminararbeiten (mixed, Student Research Project for Master)
- Master-Thesis (mixed)
- Promotions-Thesis (mixed)

Outlook

Overview to the Lectures (MR)

Overview to the Lectures (MR)

F T Ulaby, et al	Circuit Analysis and Design <small>It is a beautifully written and illustrated textbook with the same range of topics like this course. It is also free to download and used in many US universities.</small>
-	Online Simulator by Falstad <small>It is a good idea to illustrate electrical engineering principles via simulations. A nice possibility is the Falstad Simulator. There, under the menu item "Circuits", you can find a wide variety of setups.</small>
-	MEXLE-Wiki

0.4 Scared by the topics in the first week?

- Use the [Maths Learning Centre](#) (further down the link).

Contrary to what you might think at first glance, you can also go there for questions about “related subjects”. There you will find students from higher semesters who can help you with homework and problems with the lecture material. They can also give you tips on how to study.

- Try to do as many tasks as possible
- Try to stick with it and study and read in a timely manner. The semester picks up quickly..
- Form study groups / join study groups.

BUT: first try the tasks yourself and get creative, then ask fellow students!

Further information on ET1

ILIAS course

- The course for Electrical Engineering I can be found in [ILIAS](#):
 Fakultät für Mechanik und Elektronik » Mechatronik und Robotik (Bachelor) » SPO 1 Englisch Grundstudium
 » Basic studies in English » (134540) Electrical Engineering »
[\(134541\) Electrical Engineering 1 - Prof. Dr. Tim Fischer](#)

Tutorials

- 1 Tutor
- Discord (probably)
- please give feedback as soon as possible

Written exam

- Time: 60 minutes
- allowed aids in exam:
 - pocket calculator
 - 2 sheets DIN-A4 handwritten formulary
- Note: A legible and comprehensible calculation process must be available for each result.

0.6 Further information on ET2

ILIAS course

- The course for Electrical Engineering II can be found in [ILIAS](#):
Fakultät für Mechanik und Elektronik » Mechatronik und Robotik (Bachelor) » SPO 1 Englisches Grundstudium
» Basic studies in English » (134540) Electrical Engineering »
(134542) Electrical Engineering 2 - Prof. Dr. Tim Fischer

Written exam

- Time: 120 minutes
- allowed aids in exam:
 - pocket calculator
 - 2 sheets DIN-A4 handwritten formulary
- Note: A legible and comprehensible calculation process must be available for each result.
